Discover beauty in every detail.

THE PERFECT MATERIAL CHOICE

GRADE 304 Stainless Steel is the ideal material choice for grab rails. The inherent anti-corrosion properties of GRADE 304 Stainless Steel make it extremely hygienic material for the bathroom because it does not corrode and it does not collect bacteria or algae. And the brushed finish is less likely to show fingerprints or watermarks.

GRAB RAILS

ASSISTED LIVING

Bathroom Butler Grab Rails are made from GRADE 304 Stainless Steel and supplied with expansion bolts to securely fix them to the wall.
