FROM THEN TO NOW

1977 IT started with Raiël manufacturing wooden furniture.

1984 **PRODUCTION** of handles started after identifying the need for locally produced quality products.

1985 **WOODEN** mouldings was introduced to compliment his evolving & successful handle range, which followed by manufacturing components for the furniture, trade & promotional industry.

1995 **ALUMI** was established, after the trends and demand grew for locally manufactured aluminium & "SSS" handles & knobs. An anodising division was also put in place and an electroplating plant followed.

2005 **JACK DOORS** was established starting production of aluminium kitchen profile doors, bedroom sliding doors followed soon after.

2014 **RAIËL STEEL** was established due to the demande for locally manufactured steel framed office desking & accessories, as well as custom made to order products.

2020 **RAIËL SEATING** was established to offer complete upholstered products, exclusively to our customers.

CRÉMONE BOLTS FOR CABINET DOORS:

These french style crémone bolts add both aesthetic appeal and functionality to any type of opening door and can be used on kitchen or furniture doors. these bolts can be used as pairs for a symmetrical aesthetic look.

These are imitation accessories used simply as handles to open and close the cabinet doors: the rods, which would normally move vertically to engage with the frame and lock the door, are just for show.

Accessories are available standard in antique iron & antique brass. polished nickel will also be available on order only, minimum order quantities will apply.

TRUE handleless kitchens:

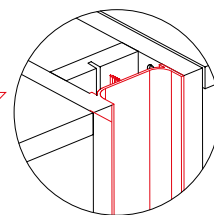

To achieve the TRUE handleless kitchen look, an aluminium rail is routed into the cabinetry on the horizontal recess between the worktop and the door / drawer, an "J" shape continuous aluminium rail runs along the entire run.

A "C" shape section is placed between additional drawers. the "C" Section allows you to open the drawer above and the drawer below whilst maintaining equal and uniform spacing.

**Vertical "C" & "J" channel systems:**

On tall cabinets such as larders and appliance housing, we suggest a vertical "C" section between each of the cabinets, or "J" on single doors

This works especially well where a horizontal rail is unable to be fitted within the appliance (due to the appliance being in the way). by having the vertical rails, it gives optimum ergonomic design appearance. your height does not matter - the 'handle' is in the right place for every one as it runs the entire length from the floor to the top of the cabinet.

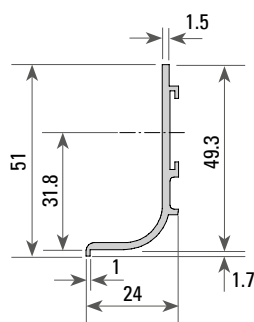

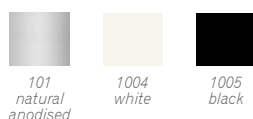

**Benefits of a handleless kitchen:**

- Clean and contemporary appearance.
- Takes up less room than a handled kitchen.
- Corners can be tight together as you do not need to make allowance for handles, worktop can be flush with the door face, with the recessed rail integrated within the cabinet, this creates a natural space to place your hand and therefore no need to have the worktop overhanging.
- Additional LED lighting can be routed into the underside of the worktop, illuminating the rail.
- Cleaning of the kitchen is also more practical, far easier to leave the doors streak free without the need to clean around the handles.
- No more catching yourself or clothes on the handles which often have sharp edges.

CARE & MAINTENANCE: FOR LONGER LASTING MIRRORED SURFACE

TO MAINTAIN THE APPEARANCE OF ANY MIRRORED SURFACES, PARTICULARLY WHEN USED IN WET OR MOISTURE-PRONE AREAS IT IS IMPORTANT TO FOLLOW THE FOLLOWING CARE RECOMMENDATIONS:

DO NOT USE AMMONIA-BASED CLEANING PRODUCTS SUCH AS GLASS CLEANER - THESE MAY ERODE THE MIRRORS SILVER BACKING, BE SURE TO READ THE LABEL OF ANY SUCH CLEANING PRODUCTS BEFORE USE.

FOR BEST RESULTS USE A SLIGHTLY MOISTENED MICROFIBER CLOTH TO REMOVE DRY DIRT OR GRIME, THEN BUFF CLEAN WITH DRY MICROFIBER CLOTH OR USE A SOFT DRY CLOTH WITH TIGHT WEAVE (WHICH IS MORE SOFT THAN ABRASIVE) THIS WILL LEAVE YOU WITH A CLEAN FINISH. BY USING ABRASIVE CHEMICALS PRODUCTS YOU NOT ONLY RISK DAMAGING THE SILVERED BACKING OF THE MIRROR, BUT ALSO LEAVE BEHIND STREAKS AND SMEARS.

PROTECTING AGAINST "BLACK SPOTTING" - ALKALINE, ACID AND MOISTURE ELEMENTS CAN CAUSE THE SILVERED BACKING OF A MIRROR TO DARKEN, THIS IS USUALLY REFERRED TO AS "BLACK SPOTTING". AN EASY WAY TO PROTECT YOUR MIRROR AGAINST THIS IS TO REGULAR OIL ANY EXPOSED EDGES I.E. POLISHED OR BEVELED EDGES. THIS WILL ACT AS A SEAL TO PROTECT AGAINST SUCH ELEMENTS. ALWAYS REMEMBER TO KEEP YOUR MIRROR DRY AND WIPE OFF ANY WATER, MOISTURE OR STEAM.

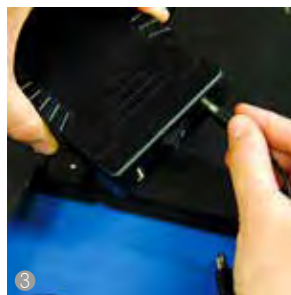

INSTALLATION - FOR EASY INSTALLATION, ALL MIRRORS ARE FITTED WITH WALL BRACKETS (ALTERNATIVE SCREWS MAY BE REQUIRED.) ENSURE INSTALLATION AREA HAS SUFFICIENT VENTILATION TO AVOID EXCESSIVE MOISTURE.

BATTERY PACK POWER SUPPLY:

EACH MIRROR EXCEPT FOR THE FRAMELESS LED IS AVAILABLE WITH A 12V BATTERY PACK POWER SUPPLY OPTION.

THE MIRRORS POWER PACK CAN BE CHARGE, BY INSERTING THE CHARGER INTO THE BOTTOM CHARGE PORT AT THE BOTTOM OF THE MIRROR (IMAGE 1), OR ALTERNATIVELY (IMAGE 2,3,4) THE BATTERY PACK CAN BE REMOVED AT THE BACK OF THE MIRROR AND CHARGED, WHEN FULLY CHARGED CAN THE BATTERY PACK BE PLACED BACK AND THE LIGHT CONNECTION FITTING PLACED BACK INTO THE BATTERY PACK'S PORT.

(±3HOURS FOR FULL CHARGE) BATTERY LAST UP TO ± 3 HOURS AT FULL POWER AND 5 HOURS AT 50%.

CLEANING AND MAINTENANCE

CLEANING PROCEDURE

- CLEAN THE STAINLESS STEEL WHEN NOTICEABLY DULL OR DIRTY.
- STAINLESS STEEL REACTS BEST TO CLEAN WATER OR MILD DETERGENT SOLUTION, APPLIED WITH A SOFT CLOTH OR SPONGE, RINSED WELL AND WIPED DRY.
- ROUTINE, SIMPLE, GENTLE AND INEXPENSIVE CLEANING WILL RETAIN BOTH THE CORROSION RESISTANCE AND APPEARANCE OF STAINLESS STEEL THROUGH YEARS OF EXPOSURE AND USE.
- OCCASIONALLY A SMALL AMOUNT OF MARINE SHINE MAY BE USED ON A SOFT, DAMP CLOTH WITH THE DETERGENT SOLUTION TO REMOVE STUBBORN DIRT OR STRAINS. RUB GENTLY.

CLEANING DO'S

- REGULAR ROUTINE CLEANING INSTEAD OF AGGRESSIVE SINGLE CLEANING.
- ONLY USE PROPRIETARY BRANDS OF CLEANERS THAT STATE "SUITABLE FOR STAINLESS STEEL".
- ALWAYS RINSE AND DRY AS THE FINAL STEP IN A CLEANING PROCEDURE.

CLEANING DON'TS

- DO NOT USE COARSE, ABRASIVE POWDERS, METALLIC SCORERS OR BRUSHES WITH METAL BRISTLES.
- DO NOT USE "SILVER CLEANERS" OR ACIDS (EXCEPT NITRIC ACID WHERE INDICATED).

STORAGE OF PRODUCTS

PRODUCT RESEARCH HAS PROVEN THAT CERTAIN HOUSEHOLD PRODUCTS WHICH MAY BE STORED UNDERNEATH A SINK, CAN LEAD TO DAMAGE OF THE SINK'S BASE. CHLORINE IS A MAJOR CULPRIT AND CAN BE FOUND IN: CHLORINE OF SWIMMING POOLS; HOUSEHOLD BLEACH; BATHROOM CLEANING PRODUCTS SUCH AS TOILET CLEANERS, MILDEW TREATMENTS AND TILE CLEANERS, KITCHEN CLEANING PRODUCTS - ESPECIALLY LIQUID CLEANERS; POWDERS FOR DISHWASHERS AND LAUNDRY DETERGENTS. PRESERVE THE LIFE AND BEAUTY OF YOUR SINK BY STORING THESE PRODUCTS AWAY FROM THE SINK AREA IN A WELL VENTILATED CUPBOARD THAT IS PREFERABLY CHILD-PROOF.

FERRARI SLIDE ON HINGES

FEATURES

- THE RANGE INCLUDES TWO DIFFERENT TYPES: "SLIDE ON" HINGES THAT ARE EASILY MOUNTED BY A SIMPLE SLIDING MOVEMENT AND "ANYWAY CLIP" HINGES AND HINGES THAT ARE PROVIDED WITH AN INNOVATIVE, EASY AND SAFE METAL RELEASE.
- THE CLIP ON MECHANISM DOESN'T REQUIRE ANY SPECIFIC POSITIONING OF THE HINGE: THE HINGE CAN BE CLIPPED ON THE PLATE IN ANY DIRECTION AND THE PLATES ARE REVERSIBLE.
- SUCH CHARACTERISTICS PERMIT MAXIMUM EASE IN MOUNTING AND INSTALLING EVEN WITH LARGE/TALL DOORS THAT REQUIRE THE USE OF MORE HINGES.

UPGRADE THE SLIDE ON OR CLIP ON HINGES BY ADDING THE WAVE SOFT CLOSING DAMPER. THROUGH THE ADJUSTING SCREW, IT IS POSSIBLE TO CALIBRATE THE DAMPING EFFECT.

POSTFORM JOINERS - delta & squareline

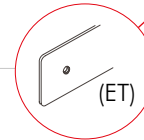

Raiel postform joiners are made of aluminium, which is first pre-treated before been powder coated in various standard colours to match the most popular postform tops.

Joiners are used to cover up joints when tops are joined.
Our range of joiners includes the DELTA range & SQUARELINE (R3, R4, R6).

There are various joiners to choose from.
(CJ) corner joints – used when two tops are joined in L-shape.
(TJ) t-joints and/or used when two tops are joined in the length.
(ET) end-trim, used on the ends of tops to finish off the top and give it a stylish look.

Please take note: The printed colour swatches on this page may vary to the actual colour sample.
